PROFESSIONAL SUMMARY

I have completed Generation Thailand's Junior Software Developer Bootcamp (Cohort 8). With 1 year and 7 months of experience as an IT Project Coordinator (Chinese Skills) and a 4-year degree in Education of Chinese Language from China, I have developed strong communication, teamwork, adaptability, management, and problem-solving skills. My technical skills include HTML, CSS, JavaScript, React, Node.js, Express, relational databases, and MongoDB.

I am seeking a Software Developer position where I can contribute to a company that values achievement, motivation, and teamwork.

EDUCATION

Huaqiao University (China)

Sep 2018 - Jun 2022

Bachelor of Education

Majoring in Education of Chinese Language

Junior Software Developer Bootcamp (Cohort 8)

Sep 2024 – Dec 2024

Generation Thailand

- Learned how to build web applications from React as front-end, Node.js as back end, and MongoDB as a Database
- Learned essential skills for switching careers, such as growth mindset, communication, agile, and teamwork
- Final Project: MERN Stack CRUD Project

The application website is divided into front-end using React with React-router and Axios as

The main dependency. In the back end, it uses Express to manage RESTful API and users

Passport JS for authentication. Finally, using Mongoose to connect MongoDB

Project (Web Ecommerce Game Development with a Team of 4)

- Our team utilized Scrum and Agile methodologies to effectively assign roles and responsibilities. We used Trello to manage individual sprint tasks. Each team member rotated through various roles, emphasizing teamwork and ensuring equitable distribution to prevent overburdening any single person. This approach facilitated smooth and flexible operations, potential issues.
